Tanishige
Suzutani
Suzunami

This full brother sister mating has produced a Bull with ½ its genes from Michifuku and ½ its genes from Suzutani. These are arguably the two best carcass animals in the American Wagyu breeding program. The 59T bull has an inbreeding coefficient of 25%. This means 25% of the genes that were in a heterozygous state are now in a homozygous state. This bull can help get more Suzutani genetics into your herd.

Igenity: Marbling 5/10, Tenderness 3/10
Backfat 4/10, Ribeye 7/10
